Subject: Invitation to participate in "International Congress on Emergency Medical Service Systems - EMS 2012"

Dear Esteemed Colleague,

Greetings from All India Institute of Medical Sciences, New Delhi, India!

We are privileged to inform you that All India Institute of Medical Sciences, Department of Hospital Administration, in continuance of its pursuit for excellence in healthcare delivery and capacity building, is organizing the 1st **"International Congress on Emergency Medical Service Systems - EMS 2012"** from **9th - 11th February, 2012** at Jawaharlal Auditorium, AIIMS, New Delhi. More than 1000 experts and delegates from diverse fields are expected to participate in this mega event from across the globe.

The **aim** of 'EMS-2012' is to provide an enabling platform of synergy to the Policy Makers, Healthcare Providers, Administrators, Industry Partners and other Stakeholders for Knowledge Enhancement, Skill Acquisition and Networking in this multi-dimensional and multi-faceted sphere of Emergency Medical Service Systems and Disaster Management.

The **Scientific Programme** of this Congress focuses on the most neglected issues in the field of EMS in India such as Ambulance Design, Systems Approach to EMS, etc. which are often ignored at various National & International forums. The event will also host a **concurrent Exhibition showcasing exhibitors from across the globe** which will give you an opportunity to get a hands on exposure to **the latest products, technology and services available in the field of Emergency Medical Services.**

Keeping in view your keen interest in the field of Healthcare including Emergency Medical Services, we invite you to participate in this coveted event as per the details enclosed herewith. We will be grateful if you could also disseminate this information amongst your colleagues & subordinates/nominate suitable candidates from your organization to attend this mega event.

With best regards,

ORGANIZING CHAIRPERSON

Dr. Shakti Kumar Gupta

International Congress on **EMERGENCY MEDICAL SERVICE SYSTEMS**

Theme: Every Second Counts...

9th - 11th February, 2012

International Congress on **EMERGENCY MEDICAL SERVICE SYSTEMS**

Theme: Every Second Counts ...

Trauma, often dubbed as “the forgotten epidemic” and the “neglected disease of modern society” is rising year by year as urbanisation crowds over half the world's population into the equivalent of 'human zoos'. In India, there is one road traffic accident every minute and a life is lost every four minutes in this. This is akin to a jumbo jet crashing every day. The National Health Profile of India-2010 lists injury as one of the leading causes of death in India. The Planning Commission of India has estimated the total societal cost of injury in India to be approx. 3% of India's GDP.

It is alarming to note that road accidents are one cause of trauma where the rate of fatalities is falling in many of the world's developed countries, but is increasing rapidly in most developing countries including India. Considering the current trends, traffic-related injuries are predicted to rise globally from the present 1.3 million to 2.1 million by 2030 - a prediction that has prompted the UN General Assembly to adopt a resolution proclaiming 2011-2020 as the Decade of Action for Road Safety. Amongst the various activities identified by the World Health Organization to improve road safety during this decade, Pillar No. 5 emphasizes on increasing responsiveness to emergencies and improving the ability of health systems to provide appropriate emergency treatment and longer term rehabilitation. This shall not only help provide emergency care to the injured but also to patients suffering from Stroke, MI, etc. for which time dependent medical therapies are available.

In view of the aforesaid facts, the “International Congress on Emergency Medical Service Systems - EMS 2012” is being organized by the Department of Hospital Administration, All India Institute of Medical Sciences, New Delhi. This Congress will be attended by approx. 1000 experts & delegates from across the globe.

Aim

To provide an enabling platform of synergy to the policy makers, healthcare providers, administrators, industry partners and other stakeholders for knowledge enhancement, skill acquisition and networking in this multi-dimensional and multi-faceted sphere of Emergency Medical Service Systems and Disaster Management.

Objectives

- Create awareness regarding the current status of Emergency Medical Service Systems in India vis-a-vis the global scenario.
- Sensitize the policy makers and healthcare providers for the need of a world class EMS System in India and its role in efficient Disaster Management.
- Deliberate on recent advances & future trends in EMS worldwide.
- Emphasize the importance of synergy and networking of stakeholders in providing EMS and Disaster Management.
- Provide a common platform for the convergence of National & International thoughts in the field of EMS & Disaster Management to develop an efficient, effective & sustainable system for India.

REMEMBER

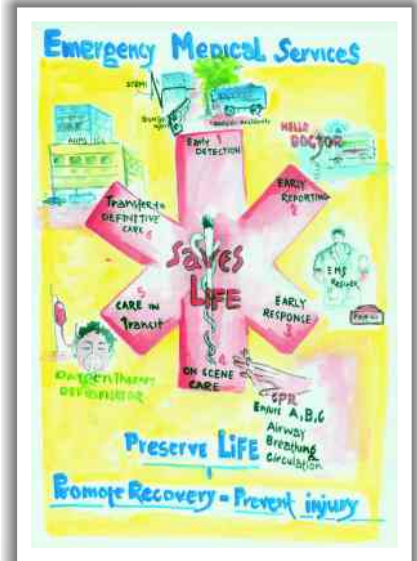

Dates: Thursday, 9th February 2012 to Saturday, 11th February 2012.

Venue: Jawaharlal Auditorium, All India Institute of Medical Sciences,
Ansari Nagar, New Delhi - 110029 (INDIA).

Scientific Themes

World Renowned National & International Experts in the field of EMS will deliberate on the following themes & share their experiences during the Congress:

- Current Scenario of EMS in India
- Trauma/Emergency Care Models
- Pre-Hospital Emergency Care
- Ambulance Designing & Equipping
- Trauma Centre/Emergency Department Planning & Designing
- Aero Medical Rescue Services
- Mass Casualty Incident, Disaster & CBRN Management
- Human Resource Mobilization, Education & Training in EMS
- Legal & Ethical Issues in EMS
- Quality & Patient Safety in Emergency Department
- EMS Financing Models
- Telemedicine in EMS
- Future trends in EMS across the globe

Networking Opportunities

The Congress will host a concurrent exhibition featuring:

- EMS Service Providers & Ambulance Operators
- Ambulance Manufacturers & Fabricators
- Ambulance Fixtures & Fittings Suppliers
- Patient Handling & Immobilization Equipment
- Airway Management & Resuscitation Equipment
- Cardiac & Vital Sign Monitoring Equipment
- Training & Simulation Equipment
- Emergency Rescue Gear and Tools
- Communication and Dispatch Software
- Cellular, GIS & GPS Solution Providers
- Satellite & Wireless Communication Equipment
- Incident Command & Control Solutions
- Hospital Planning, Designing & Project Consultants
- Hospital Architects & Engineers
- ICU & Critical Care Equipment
- Modular OT & OT Equipment
- ER Imaging & Laboratory Equipment
- Medical Gas Pipeline Systems
- CSSD Equipment like Plasma/Flash Sterilizers
- Infection Control Solutions in Emergency Care
- Mobile Hospitals, Clinics & Diagnostic Solutions
- Mass Casualty & Disaster Response Equipment
- CBRN - Detection, Decontamination & Protection Solutions
- Aero Medical Rescue Service Providers
- Healthcare Insurance & Financing Organizations

Who Should Participate?
